Summary of program/project/scheme [max. 100 words]:

This will outline the context and aims of your program/project. For instance:

“The Firozabad glass industry cluster in India produces over 70% of the entire output of glass products in the Indian small-scale sector. Many MSME units in Firozabad use low-efficiency furnaces in their processes. Under this project, TERI developed and demonstrated an improved efficiency natural gas-fired melting furnace popularly known as pot furnace that reduces fuel usage by nearly 30% and thereby improves profitability. About 60 such furnaces are now operating in Firozabad.”
